

SPECIFICATION SHEET

Tortlegate Barrier

SPECIFICATION SHEET

Turtlegate Barrier

PRODUCT DESCRIPTION >

Built in sturdy aluminium, these versatile Turtlegate safety barriers are designed for indoor and outdoor use. Each gate comes with four secure locks: two interconnecting locks and two wheel locks.

Available in both yellow and red, these gates are highly manoeuvrable, whether tilted on two wheels or flat on six. The gates lock together to comprise a continuous barrier network.

The gates can be fully expanded and contracted. The expanded width is 2.1m, and the contracted width is 430mm.

TURTLEGATE BARRIER SPEC >

Expanded	Closed	Height	Width	Weight
