### Double Hand Wash Station

# SPECIFICATION SHEET

## Double Hand Wash Station

### PRODUCT DESCRIPTION >

Double freestanding hand wash station. One tank contains the fresh water, the other waste water, giving you 200 uses.

The double hand wash station is complete with a dividing wall, to help with social distancing, and allow you to install a soap and a paper towel dispenser on each side. The foot-operated water pump allows touch free washing and rinsing of hands.

The limited footprint of the unit allows easy transportation including to temporary sites such as schools or factories, without the need of running water hoses to and from the unit. As always, the sink top can be removed for pumping or cleaning, or the complete unit can be transported to a drain for emptying.
