

SPECIFICATION SHEET

Buddha Barrier

SPECIFICATION SHEET

Buddha Barrier

PRODUCT DESCRIPTION >

The Buddha Barrier is a uniquely designed, completely anti-trip water filled separator. Available with, or without a reflective strip.

At 800 mm in height, it creates a safer environment for pedestrians over traditional Water Filled Separators, as well as this, the Buddha Barrier can be fitted with a metal fence panel that creates a barrier over 1.8m in height.

BUDDHA BARRIER SPEC >

| Height | Length | Depth | Weight Empty | Weight Full |
|--------|--------|-------|--------------|-------------|
| 800mm | 1040mm | 280mm | 5.5kg | 27.5kg |

SPECIFICATION SHEET

Buddha Barrier Double Top

PRODUCT DESCRIPTION >

The handy lightweight DoubleTop fence add-on system allows end users to quickly convert their 800mm high Buddha Barrier into a substantial 1800mm fence.

In addition to being lightweight the DoubleTops blow moulded structure means there is no need to worry about sharp edges when handling the panel.

The plastic unit also has the advantage of being colour coded to match the red and whiter Buddha barrier, meaning maximum visual impact when on site.

BUDDHA BARRIER FENCE SPEC >

| Height | Working Width | Actual Width | Depth | Weight |
|--------|---------------|--------------|-------|--------|
| 1000mm | 1010mm | 1110mm | 50mm | 4.4kg |

SPECIFICATION SHEET

Buddha Barrier Corner Layout

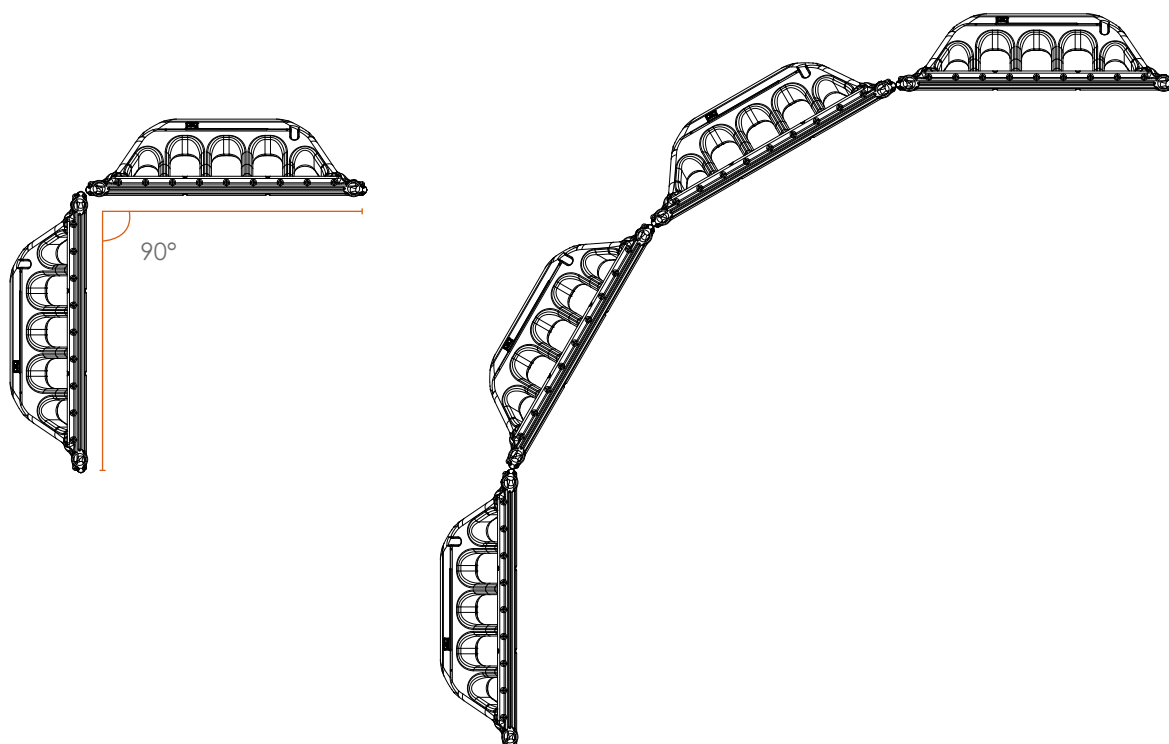

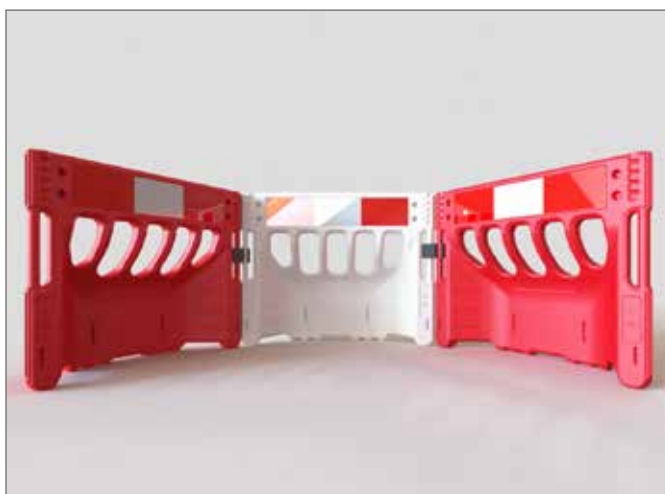

PRODUCT DESCRIPTION >

The Buddha Barrier can actually rotate over 270° degrees due to its unique design.

Pivoting on its own connection pin the barrier can be placed in a perpendicular position, an angle previous water filled barriers have not been able to achieve.

The Barrier can also be positioned face to face, which creates a closed connections that can be used to cover exposed areas such as open manhole covers.
