Mini Mesh Add-On

SPECIFICATION SHEET

Mini Mesh Add-On

PRODUCT DESCRIPTION >

By combining many of our barriers such as the Evo 55, Pyramid and Euro with a mesh fence you can extend the height and functionality of your barrier system.

With many of the smaller water filled barriers the addition of the mesh fence can often double the overall height or at least extend it to up to 1 metre.

As add-on goes this is extremely quick and easy to install as unlike some fence additions the mini mesh does not require any extra fixings, it's as simple as simply slotting the mesh panel into place.

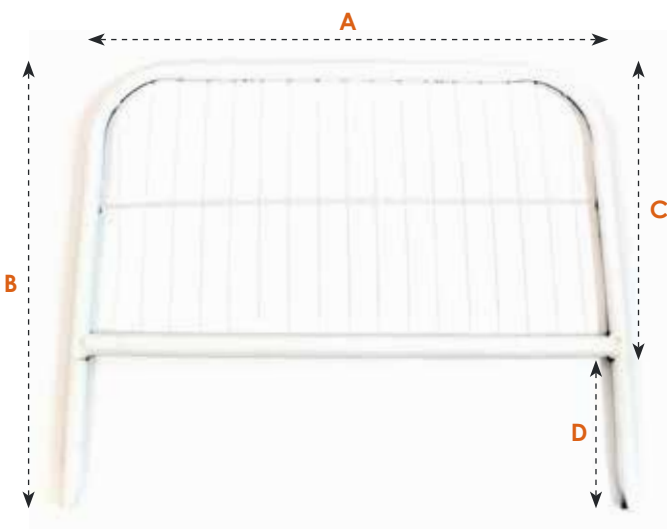

MINI MESH FENCE SPEC >

Width	Height	Thickness	Weight
960mm	560mm	40mm	4kg
