Skipper Unit

SPECIFICATION SHEET

Skipper Unit

PRODUCT DESCRIPTION >

This is the premier solution for global health and safety professionals. Versatile and cost-effective, the Skipper Unit is a retractable barrier system that attaches to virtually any standard traffic cone.

Lightweight and easy to store, Skipper is also remarkably robust and durable. It measures 9m but is fully retractable and can be used to cordon off areas inside and outside safely.

Available in orange, red, silver, green blue or yellow, the improved grip Skipper Unit comes with a variety of tape style options too.

SKIPPER UNIT SPEC >

Width	Height	Depth	Weight
