

SPECIFICATION SHEET

28kg Footplate

SPECIFICATION SHEET

28kg Footplate

PRODUCT DESCRIPTION >

Manufactured from completely recycled material, our 28kg footplate supplies weight and stability to various applications.

Equipped with four handles so two operatives can place where needed and relocated easily. The Footplate has five location holes all sized respectively to corresponding posts, such as Thor barriers.

The Footplate is made from completely recycled material and can be embossed with your corporate branding for a more personal touch. The bases stack with one another to make storage and transit simple.
